To the residents of Dinant Avenue

Skanska, one of the world's largest development and construction services companies, is proud to be working on behalf of the Essex Local Education Partnership to redevelop schools across the County. At Cornelius we will be constructing a new school and re-furbishing existing blocks in a programme due for completion in early 2012.

Our construction programme will commence in July 2010 and will complete in April 2012. With this in mind we would like to work as closely as possible with our neighbours to ensure we deliver a successful project and have zero impact to the surrounding environment.

It has been brought to our attention that a number of residents have concerns regarding the development, in particular the use of Dinant Avenue by Construction Traffic.

Before our main works commence we would like to address any concerns you have and hopefully form a successful relationship for the works to progress.

We have included contact details above for you to get in touch and discuss any issue's or concerns that you may have.

I would like to take this opportunity to thank you for your co-operation during these construction processes and will keep you informed in advance of our future planned works.

SKANSKA
